

2009 Redstone Cabernet Sauvignon

Background

The Redstone range is produced from Coriole's own estate vineyards and other selected sites in the McLaren Vale Region. The name comes from the distinctively coloured ironstone so common in the vineyards and buildings at Coriole.

Tasting Notes

Strong varietal Cabernet Sauvignon aromas on the nose - cigar box, tobacco and leafy notes. The palate is medium to full bodied with red fruits on display. Good structure and even tannin.

An approachable, drink now style that will also reward with careful cellaring.
